

## QUALITY POLICY

**Since 1979, Robertson Geo has been the global pioneer developer of geophysical logging technologies and techniques, and a leading logging services provider.**

We are committed to ensuring customer satisfaction by meeting and exceeding customer requirements in all areas of our business.

The Management and staff of Robertson Geo are committed to:

- *Fully understanding and communicating customer requirements to all persons working for or on behalf of the company*
- *Identifying risks and opportunities, and effectively managing these through risk based thinking*
- *Delivering our products and services within budget and on time*
- *Working in close liaison with our suppliers and subcontractors to ensure the highest levels of quality at all times*
- *Complying with all relevant legislation, regulations, professional and industry standards and codes of practice applicable in the countries where we operate*
- *Managing and developing our business processes and quality objectives to ensure continual performance improvement*
- *Setting and reviewing measurable objectives for quality continual improvement on a regular basis*

In order to demonstrate our commitment to quality we have implemented and maintain a Quality Management System certificated to BS EN ISO 9001:2015.

This policy is subject to annual review and is communicated to our clients and to all persons and suppliers working for and on behalf of Robertson Geologging Ltd.

Signed:

Date: 31st May 2018

Simon Garantini - Managing Director
